DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I, claim 27 and dependent claims 7-11, 26, 28 and 35-36, drawn to a filter element having the technical features of a paper roll filter media and a canister having anti-tracking ribs uniquely spaced.
- Group II, claim 29 and dependent claims 30-31 and 33-34, drawn to a filter element having the technical features of a paper roll filter media and a canister having anti-tracking ribs and a base annular projection.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical features the groups have in common, i.e. a paper roll filter media and a canister having anti-tracking ribs, are already known in the art '737, therefore unity of invention is lacking between the groups.

2. A telephone call was made to Liam McDowell on 3-9-2005 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
